BRANCH

MEMBERSHIP FOR 2022

The Royal Society of NZ has been active in Rotorua for more than 40 years. We rely on member subscription to partly support the cost of bringing top NZ and international scientists to Rotorua. Membership is only \$20 per year for individuals or families and this gets you on our mailing list for information on upcoming lectures, and a chance to hear about topical science issues presented by NZ's leading science researchers.

Details of our lectures are also listed on our [website](#)

We are open to suggestions for speakers, especially if you know of international colleagues who may be visiting through the year, and we are always looking for helpers for our small organizing team. Feel free to contact me at laura.raymond@scionresearch.com or any of the committee members - Lloyd Donaldson, Stefan Hill, Louise Sanford, Samuel Arnet, and Rowland Burdon.

Membership for 2022 is now due. The cost is \$20 for an individual or family.

You can pay by electronic banking. Our bank account details are as follows:
Westpac – Royal Society of NZ Rotorua 03 1552 0093123 00 – please make sure your name is clearly shown in the reference box when setting up the payment on your computer or phone.

We can also accept cash at our meetings.

Please fill in the form below if we don't already have your contact details – we need your email address to send you information.
